With the two practical handrails of the integrated folding patient seat, you can easily convert the wheelchair platform scale into a multi-functional scale. This way patients can be weighed standing up, with support from the handrail or in a comfortable seated position. If you fold the patient seat up, then a wheelchair can be pushed or driven onto the scale. The strut rod included with delivery ensures a high level of stability and torsional rigidity. The drive-through protection which is also fitted as standard for the front wheels of the wheelchair gives an extra level of safety

KERN MWA 300K-1PM

◻ ◀ **KERN MWA-A02:** Handrail, without column, cannot be folded, for self-assembly on the wheelchair platform scale KERN MWA 300K-1M or MWA 300K-1PM. With the practical optional handrail set, the wheelchair platform scale KERN can be converted quickly and easily into a multi-function scale. This allows the patients to be weighed while standing on the scale, with support from the handrail or weighed in a wheelchair
